

RECOMMENDATION FOR RANDY MOSIER

Church 6 Types of Working Genius Workshops

To Assembly of God Pastors,

We at the Southern Missouri Ministry Network are pleased to recommend Randy Mosier as a facilitator of the *6 Types of Working Genius in our local churches*.

In January, Randy conducted a highly informative and helpful session with our Network Office staff. He expertly guided us through the framework of the 6 Types of Working Genius and created a **team map** that has already begun to enhance organizational collaboration. We were particularly impressed with his ability to help each staff member identify their areas of genius and how those gifts can best be utilized within the team. We believe this tool will help us work together in the future to maximize what we do as a Network

Unleash Your Team's Potential

We wholeheartedly encourage church leadership teams to engage with Randy to discover and utilize the unique gifts of each team member for the advancement of the Kingdom of God. Understanding and leveraging each person's working genius can lead to increased productivity, greater job satisfaction, and a more effective ministry.

We are confident that Randy's expertise in this area will be a valuable asset to your church. I ask that you prayerfully consider having Randy share the 6 Types of Working Genius with you and your team.

For further inquiries, please contact Randy Mosier directly. If you have questions, please don't hesitate to give me a call (816) 808-4973

Sincerely,

Rev. John Martz
Church Health Director
